Re: Permit Amendment and Renewal
Permit Number: 7711A
Asphalt and Roofing Materials
Manufacturing Facility
Dallas, Dallas County
Regulated Entity Number: RN100788959
Customer Reference Number: CN600474753

Dear Mr. Stephens:

I expect to recommend the amendment and renewal of the above-referenced permit in the near future. When amended and renewed, the permit will contain conditions and a maximum allowable emission rates table (MAERT). A draft copy of the proposed conditions and MAERT is enclosed for your review.

If you have comments or questions concerning the conditions, please let me know as soon as practicable to avoid delay. Failure to receive your comments within 30 days from the date of this letter will result in the preparation of a compliance schedule. If the conditions of the schedule are not met, we will proceed with a show-cause hearing concerning the renewal of your application.

Please reference the regulated entity number (RN), customer reference number (CN), and permit number noted in this document in all your future correspondence for the referenced facility or site. The RN replaces the former Texas Commission on Environmental Quality account number for the facility (if portable) or site (if permanent). The CN is a unique number assigned to the company or corporation and applies to all facilities and sites owned or operated by this company or corporation.
